GGDA028

DOOR ANCHOR

OVERVIEW

Door Anchor is a compact and non-intrusive temporary anchorage solution designed for interior work-at-height applications. Engineered for quick installation without drilling or structural modification, it provides a secure anchor point within door or window frames. Lightweight yet durable, its adjustable design ensures flexibility across various frame sizes, making it an ideal choice for safe, efficient fall protection.

KEY FEATURES

- Provides a non–intrusive anchor point and can be easily installed inside the interior of a building or window opening enabling the most difficult jobs to get done safely and with confidence.
- The Door Anchor can be installed by just compressing it against the door or window frame, jamming itself between the two vertical sides.
- Made of a highly corrosion resistant Aluminium Alloy.
- Adjustable, enabling installation on door / window frames of width from 60.0 cm to 125.0 cm.

TECHNICAL SNAPSHOT
