GGEFA029

# EDGE FIX ANCHOR

## OVERVIEW

Edge Fix Anchor Post is a versatile and durable anchorage solution designed for edge protection during roof and steel structure works. Its smart structural design allows safe and efficient user movement while providing a dependable connection point for fall protection systems. Built for strength and adaptability, it supports multiple users and ensures secure performance in demanding construction environments.

## KEY FEATURES

- Span lengths are adjustable with the help of intermediates.
- The post comes with a unique tilted design to allow unobstructed movement of the user during the construction of roofs or metal structure.
- Can be used by maximum 4 users simultaneously.
- Compatible with beam having flange width of 150.0mm to 220.0mm.

## TECHNICAL SNAPSHOT
