GGFBA030

FIXED BEAM ANCHOR

OVERVIEW

Fixed Beam Anchor ensures your safety at all times and over any distance on roofs, vehicles, towers, platforms, and similar structures. By using these anchoring devices together with the shuttle, the shuttle can move smoothly over intermediate brackets without obstruction. It enables safe attachment for fall protection equipment.

KEY FEATURES

- Designed for temporary lifeline systems only
- Single-user anchorage point
- Suitable for roofs, vehicles, towers, platforms, and similar structures
