GGJT002

SWAGED TENSIONER

Also used in OL VL

OVERVIEW

Swaged tensioner with tension force indicator for 8 mm wire. It links the cable to the energy absorber and lets the installer adjust and tension the lifeline; the indicator plate starts to rotate once the correct tension is reached, and cable sealing stops vibration from loosening it.

KEY FEATURES

- Serves as a connecting component between the cable and the energy absorber.
- Enables cable adjustment and tensioning to maintain a taut horizontal lifeline.
- Equipped with a tension force indicator plate that begins to rotate once the correct tension level is achieved.
- Includes cable sealing to prevent unintentional rotation caused by vibrations.

TECHNICAL SNAPSHOT

Detailed dimensions and load ratings for this item are provided with the quotation. Contact Groxx at **inquire@groxxgears.com** or scan the code below.

USE & INSPECTION

Install to the Groxx instructions by trained installers. Inspect before each use and at least every 12 months by a competent person.

STANDARDS

EN 795:2012 Type C | CEN/TS 16415
