GGPA034

PARAPET ANCHOR

OVERVIEW

The Parapet Anchor is designed to provide a secure anchorage point on parapets and facades for various elevated work applications. Unlike traditional screw-bolt anchors that may damage the base structure, this system preserves the appearance of the parapet and facade while ensuring safe fall protection.

KEY FEATURES

- Provides safe anchorage on parapets and facades
- Non-invasive design that protects the base structure
- Soft inner flange lining prevents surface damage
- Adjustable flanges to suit parapet widths from 60 mm to 360 mm

TECHNICAL SNAPSHOT

Detailed dimensions and load ratings for this item are provided with the quotation. Contact Groxx at **inquire@groxxgears.com** or scan the code below.

USE & INSPECTION

Install to the Groxx instructions by trained installers. Inspect before each use and at least every 12 months by a competent person.
