GGRAP035

REMOVABLE ANCHOR POINT

OVERVIEW

Removable Anchor Point is a portable anchorage device that can be installed on H-beams, concrete structures, and decorative surfaces with a thickness not exceeding 30 mm. The base and anchorage point are separated for quick and easy removal. Multiple base options are available for flexible and convenient installation as needed.

KEY FEATURES

- A removable anchoring device composed of a single attachment point and multiple modular components.
- Portable anchoring device with detachable base for easy installation and removal
- Push-button locking mechanism with safety protection
- 360° rotating ring adapts to vertical and horizontal load directions
