GGRBA037

ROLLING BEAM ANCHOR

OVERVIEW

The Rolling Beam Anchor attaches to structural steel beams to create a movable rolling anchorage point for fall arrest systems. It adjusts to fit various beam widths and allows the user to move safely along the length of the beam.

KEY FEATURES

- Provides a movable anchorage point that travels along the beam with the user
- Ensures continuous fall protection across the beam length
- Adjustable flanges to fit different beam sizes
- Smooth-rolling wheels for easy and stable movement

TECHNICAL SNAPSHOT

Detailed dimensions and load ratings for this item are provided with the quotation. Contact Groxx at **inquire@groxxgears.com** or scan the code below.

USE & INSPECTION

Install to the Groxx instructions by trained installers. Inspect before each use and at least every 12 months by a competent person.

STANDARDS

EN 795:2012 Type B | CEN/TS 16415

Designed to EN 795:2012 Type B, CEN/TS 16415. Test certificate on request.
