GGSPA040-1

SLIDING BEAM ANCHOR

OVERVIEW

The Sliding Beam Anchor ensures your safety at all times when working on steel beams in roofs, overhead cranes, power towers, platforms, and similar elevated structures. When used along the beam, it moves smoothly with the user, allowing continuous and secure anchorage throughout the work area.

KEY FEATURES

- Designed for one user only
- Suitable for overhead cranes, power towers, platforms, and similar steel structures
- Smooth and continuous movement along the beam
