GGSPA040

SINGLE POINT ANCHOR

OVERVIEW

Single Point Anchor is a forged 316 stainless steel anchorage point designed for reliable fall protection. Suitable for rooftops and steel structures, it is also ideal for abseiling applications. The anchor can withstand load impact in all three axes (X, Y, and Z), making it highly versatile, and extremely durable.

KEY FEATURES

- Forged single-point anchor made from 316 stainless steel
- Suitable for abseiling and fall protection applications
- Designed to sustain load impact in X, Y, and Z directions
- Smooth finish with no sharp edges or burrs
