GGSTB042

SQUARE TUBE BRACKET

OVERVIEW

The Square Tube Bracket provides a secure anchorage solution for work at height on square tube structures and similar steel frameworks. Designed for stability and strength, it ensures reliable fall protection while allowing users to perform tasks safely and efficiently. This anchorage solution delivers dependable protection throughout the working process, helping minimize interruptions and maintain continuous safety.

KEY FEATURES

- Designed for one user only
- Square tube steel structures, platforms, overhead frameworks, and similar installations
- Stable and secure anchorage connection
