## CONTAINER ANCHOR POST

Container Anchor Post is a dependable temporary anchorage solution designed to ensure protection when working on top of shipping containers. Engineered for strength, stability, and ease of use, it provides a secure connection point for fall protection systems in demanding work environments. Its practical design allows efficient installation and removal, making it ideal for temporary applications where safety and flexibility are essential.

### FEATURES

- Container Anchor post is meant to provide a temporary anchor for working on top of 20ft and 40ft shipping containers
- In addition to use as a stand-alone anchor post, Container Anchor Post can also be used to form a Horizontal Lifeline over the top of container depending upon the requirement of work to be done.
- Comes with a side lock and tag line arrangement for easy and secure installation by one person only.
- Consists of side handle with special grip for easy carrying and safe transportation.
- Can be easily removed without damaging the container.
- Consists of one swivel eye for anchorage / making connections.
