

# GRX BOOM DAVIT ARM

GGBDA046

## TECHNICAL SPECIFICATION

The GRX Boom Davit Arm provides a secure and dependable anchorage solution for working at height in areas such as rooftops, platforms, confined spaces, and industrial structures. Designed to support lifting and fall protection systems, it ensures safe and stable operation throughout the task. When used with compatible fall arrest or rescue equipment, the davit arm allows smooth and controlled movement, helping users perform work efficiently and without interruption. It is easy to operate, suitable for demanding environments, and built with a durable, high-quality finish.

### FEATURES

- Up to 4 users simultaneously (depending on configuration)
- Rooftops, platforms, confined spaces, industrial facilities, and similar elevated work areas
- Stable and reliable anchorage for lifting and fall protection systems

### MATERIAL

- V4A Stainless Steel

EN 795:2012 Type B,  
TS 16415:2013 Type B

#### USED IN INDUSTRY
