

SIMPLEX FALL ARREST ANCHOR

The Simplex Fall Arrest Anchor provides reliable protection when working at height on roofs, overhead cranes, power towers, platforms, and similar structures. Designed as a secure anchorage point, it ensures dependable fall protection while allowing users to work safely and efficiently. In most applications, the Simplex Fall Arrest Anchor delivers stable and consistent protection throughout the task, helping users continue their work without interruption. It is easy to install, suitable for demanding environments, and manufactured with a durable, high-quality finish.
