

# TRIPOD

GGTPD047

## TECHNICAL SPECIFICATION

The Tripod is a portable anchorage system designed for confined space entry, rescue, and fall protection applications. It provides a stable and secure overhead anchor point, allowing safe access to tanks, manholes, shafts, and similar vertical openings. When used with compatible winches or fall arrest devices, it ensures controlled lifting and reliable protection throughout the operation. The tripod is easy to set up, adjustable for various working heights, and built for durability in demanding environments.

## FEATURES

- Maximum users as per configuration and system setup
- Confined spaces, manholes, tanks, shafts, and vertical access points
- Stable overhead anchorage for fall protection and rescue

## MATERIAL

- High-strength aluminum alloy (or specified material)

CE EN 795:2012 Type B,
